ESTABLISHED IN 1859

Bell & Anderson Take Mansfield's Practice

The law firm of Bell & Anderson, composed of Richard O. Bell and Mayor Harold F. Anderson, announced here it had taken over the private practice of Albert Mansfield, city attorney who died last Tuesday.

It was the wish of Mr. Mansfield, expressed to his wife shortly before he passed away, that his business be taken over by Mayor Anderson, a long-time friend.

It was also announced this morning that Paul A. McCarthy, who is to be confirmed tonight as city attorney to succeed Mr. Mansfield, would open offices at once in the same building—the San Mateo County Building and Loan Building at 2024 Broadway—in which Bell & Anderson's office is located.

McCarthy is taking the same telephone number used for many years by Mr. Mansfield—Redwood 108. The suite he is taking was occupied for 17 years by Dr. Robert C. Frazier, chiropractor, who has moved to 737 Middlefield Rd.

Attorneys Bell and Anderson have had their own law offices here since leaving the district attorney's office in January, 1935. They were both deputies under Edmund Scott when he was district attorney.

Both coal and oil are used in manufacturing plastics.

Soldiers To See New Motion Pictures

The first 80 motion picture programs on 16mm film for showing to American soldiers in combat areas were presented to the War Department as a gift from the motion picture industry. Brig. Gen. F. H. Osborn, chief of the special services branch, expressed appreciation for "this latest evidence of the industry's fine co-operation in the war effort."

Francis S. Harmon, executive vice chairman of the war activities committee, pointed out that this was the first time all the companies had agreed to reduce current feature pictures and short subjects to 16mm size; that the programs which are ready for immediate shipment included films not yet in general release since industry leaders wanted to provide American soldiers in combat areas with the best and latest in screen entertainment.

In accepting the gift, General Osborn declared that this generous action enabled his department to furnish current films for the entertainment of men in combat areas at least 60 days earlier than would have been possible if a special appropriation had been required to pay for them; that there would be no admission charge for the exhibition of these 16mm prints in combat areas to relatively

Captain May Of M.P. Dies

MENLO PARK—Hugo May, 62, a retired army officer and member of the Menlo Park City Council until last week when his term expired, died at his home, 655 Hermosa Way, Menlo Park, at 5:30 p.m. Saturday. He had been in failing health for several years.

Although he retired from the army in 1929 as a first lieutenant, he was affectionately known as Captain May.

He was a native of Germany, but came to the United States when he was 6 years old. He volunteered for the army at the age of 17 and fought throughout the Spanish-American War with Company A, 5th Infantry. He enlisted in the coast artillery during the year following the war and went into service at Fort Caswell, N.C.

During the first World War he received his commission. His service with the army totaled 30 years, of which three were spent in Manila.

Captain May had lived in Menlo Park for 11 years. He was elected to the city council four years ago and devoted much of his time to recreational activities in the community.

Just two weeks before his council term expired he won a court decision which entitled him to retain his post after an ouster had been attempted because he had missed meetings during a 60-day period. He was not a candidate for re-election.

He was a member of Palo Alto Camp 129, United Spanish War Veterans, and Menlo Park American Legion Post 443.

Surviving are his wife, Mrs. Mary Kenney May; two daughters, Miss Mary Frances May and Miss Rita Marie May, both of Menlo Park; a son, George May of Menlo Park; two sisters and a brother.

The Harvard library has doubled in size every 20 years for a century.

Small groups of men at each performance, and that this was simply the latest evidence of the industry's fine co-operation in the war effort.

War Theme Anticipated

SAN MATEO — San Mateo County's second annual Pageant of Petals has now been set for May 30, in observance of Memorial Day, and dedicated to the heroes of the armed services.

The purpose of the event, according to officials of the San Mateo Chamber of Commerce, sponsor, will be to dramatize the appeals being made by the Red Cross, USO, War Bond Sales committees, San Mateo County Blood Bank, and similar agencies.

It would also form a review of the strength of San Mateo County's civilian defense forces, according to Duncan Knowles, general chairman. Interested organizations throughout the Bay Area are invited to enter.

Booths for the sale of War Bonds and Stamps will be erected along the line of march, through which it is hoped that San Mateo will reach the \$1,000,000 mark in bond sales. A queen contest, a three-day flower show and a dance on May 29 will be held in conjunction with the pageant, Knowles said.

The leading section of the parade will be known as the Victory Unit, comprised of the drill teams, color guards, and bands of patriotic and civilian defense organizations.

Miniature flower floats, ridden upon and drawn by small children in costume, and depicting every possible phase of the nation's war effort, will form the main body of the patriotic pageant.

Elementary and high school students throughout San Mateo County are preparing entries, giving assurance, according to Knowles, that the pageant will be even more spectacular than the one last year.

Boy Scouts, American Legion, Red Cross, AWWV, and civic, service, and fraternal organizations throughout the county are co-operating.

Current average hourly earnings vary widely between industries but on the average are the highest ever paid, according to the Department of Commerce.

Nazis Invade Sequoia Sunday

Desperate flight—Raymond Massey faces Nazi terrorism in Columbia's "The Invaders" when Eric Portman, as the last remaining member of a U-boat crew stranded in Canada, attempts to escape. Laurence Olivier and Leslie Howard share starring honors with Massey. This picture opens a 3-day engagement at the Fox Sequoia Theater on Sunday.

Survey Due Late in May

Redwood City's traffic survey, to be made by the California State Automobile Association, is tentatively set to be made beginning May 18, the traffic study committee was informed at its meeting in the city hall Monday.

Edwin S. Moore, public relations executive of the CSAA, met with the committee to outline plans for the survey and to hear ideas of what should be covered.

A comprehensive study is planned, it appeared, with particular emphasis being placed on parking, grade crossings and moving traffic. Moore will supervise the survey, which will be made with assistance of the Redwood City Police Department and local young people, probably members of the traffic problems classes at Sequoia High School, whose services were offered through their instructor, Ronald Anderson. Cost of the survey is not to exceed \$300, under provisions made by the city council upon recommendation of the traffic committee. The CSAA makes no charge for its personnel.

Contrary to popular belief, traffic has not decreased ma-

Fear To Seek County Tax Post

William J. (Bill) Feary, Burlingame civic leader who has been mentioned as a potential candidate for tax collector, today said he had decided definitely to seek the office.

Supervisors Fred E. Beer of San Mateo and John W. Poole of Redwood City already have announced that they would run. The incumbent is Ambrose McSweeney of South San Francisco, dean of county officials, who is recovering from illness.

Committee Named For Portola Fete

SAN CARLOS—From a representative group of 10 organizations at a meeting on Monday at the city hall, an organization committee was chosen to act as a temporary executive board to work out ways and means of producing again this year the San Mateo County Portola Jubilee Pageant Festival.

Each organization in San Mateo County will be asked to have a part in the pageant. Many ideas were advanced designed to produce another stirring spectacle of the West.

Members of the committee selected were P. J. O'Meara, William Daniels, Albert W. Smith, Hillis Hubbard and William H. Penat.

Organizations represented were Parent-Teacher Association by Mrs. Harold E. Sorg; San Carlos Athletic Club by H. Horne and A. N. Granish; Junior Matrons, Mrs. F. D. Bundsen; Carlostans, Miss Cecelia McCue and Mrs. Walter Hennessy; American Legion Auxiliary, Mrs. S. E. Day; Racquet Club, Miss Eileen Mair; Garden Club, Mrs. E. P. Palm and Miss Janice Palm; Community Club, Penat and Harold Jones; Players Club, Daniels, O'Meara and Smith.

Motor Corps Aids Drive

Preparing for the house-to-house canvass beginning May 24 during which every individual who can write his name—man, woman and child—will be asked to pledge regular purchases of war bonds and stamps, the Redwood City War Savings Committee has arranged to open a downtown office May 1 and is making careful plans for the pledge campaign.

The office will be located at 2521 Broadway, in the storeroom formerly occupied by Good Housekeeping Store. It has been made available to the committee without charge.

In charge of a volunteer office staff will be Mrs. Max L. Gelber, wife of the Sequoia High School music instructor, according to announcement made today by John W. Brand, chairman of the war stamp committee.

WOMEN'S MOTOR CORPS AIDS The pledge campaign itself will be handled by the Redwood City Women's Transport Corps, under direction of Mrs. Emma Flores, captain, assisted by representatives of organizations on the general committee and volunteers. Every house in the city and immediately adjacent areas is to be visited by the solicitors.

Mr. Gelber has been appointed as general secretary of the Redwood City War Savings Bond and Stamps Committee, by the executive committee. He will maintain an office at the high school. Chairman Brand expressed the hope that the canvass here could be completed in four days. "It is my earnest hope," he said, "that Redwood City can be the first city in California to report its campaign completed."

PLANS OUTLINED He recently attended a meeting of executive chairmen in San Francisco where plans for the drive were outlined.

"This 'Pledge Victory' drive," he said, "is a voluntary plan in which every man, woman and child will be asked to sign a promise to buy stamps, or bonds, at regular intervals as long as they are financially able to do so. It is a moral pledge to invest in victory."

The information given Pledge Victory Minute Men, as the solicitors will be called, will be held confidential to serve as a guide to the government of the amount it can expect its citizens to invest at stated periods. The pledge is not a contract, but a promise to pay as long as one is able to do so.

The stage route, started in 1756 between New York and Philadelphia, took three days to make the trip.

More Machine Shop Courses Planned Here

Two courses in defense machine shop were announced today by S. S. Mayo, night school principal at Sequoia High School. One, a 350-hour course is designed for men out of work who wish to prepare themselves for defense work. This class meets Monday, Tuesday, Wednesday, Thursday and Friday nights for defense work. This class from 7:30 p.m. to 9:30 p.m., with John Grass as instructor.

The other, a 90-hour course, is a supplementary one for machinists who wish to better their present jobs. This class meets Monday, Wednesday and Friday from 7:30 p.m. to 9:30 p.m., also under Instructor Grass.

Both classes are in session now, and will continue through the Summer. In each class there is more room and men may enroll at any time.

The beginning date for the radio communication course to be given at Sequoia will be announced as soon as arrangements are made with the government and materials are secured, according to Night School Principal Mayo.

Woman Drops Case Rather Than Leave Job

Carlet M. Daniel, 27, garage owner arrested in December on rape charges filed by Eunice Doherty, 33, of San Mateo, was released Wednesday as the woman told the court she did not wish to prosecute. She explained that she was working in a defense plant and could not afford to give up three days for the trial.

Dep. Dist. Atty. Louis B. Demattei made the motion for dismissal. It was granted by Judge Ernest Wagner, Santa Barbara County judge brought to Redwood City especially to hear the case. A jury panel and a number of witnesses were on hand to start the trial when the plaintiff changed her mind.

2 Held for Half-Hour Violation of Curfew Law

Apparently the federal government means 8 o'clock when it says 8 o'clock.

Two San Mateo aliens who assertedly took a half hour leeway with the 8 p.m. curfew law for aliens Saturday night found themselves in jail an hour later as a result.

The pair, Michael Kurt Heller, 40, and Herman Ortwein, 43, both gardeners, were arrested by San Mateo police and Federal Bureau of Investigation agents Saturday and booked at the city jail at 9:02 p.m. Later they were brought to the county jail and held "en route to immigration authorities." San Mateo police said the men did not come into their room at 111 Ninth Ave. until 8:30 p.m. while they should have been in a half hour earlier. Both are German aliens.

Licenses are required to grow tobacco in Ireland and the government otherwise exercises strict control over its cultivation, according to the Department of Commerce.

Water Rate Cuts Sought

MENLO PARK—The first business meeting of the new Menlo Park City Council proceeded without a hitch Tuesday as the board undertook its first large project in an effort to obtain a reduction in water rates.

At the suggestion of Councilman Charles P. Burgess the council unanimously authorized City Clerk Fannie Kurtz to write to the California Water Service requesting "a substantial cut in water rates."

Burgess based his report on a study of the water company's report to the State Railroad Commission and on an investigation he made during the past week.

He said that in 1941 earnings after taxes (except for the federal income tax) amounted to \$120,732 or 7 1/4 per cent on the firm's property.

"Even after the federal income tax, the return was 6 3/4 per cent," he said. "In a period when utilities may borrow money at 2 1/2 per cent to 4 per cent this rate appears exorbitant."

NO CUT IN DECADE
He gave as other reasons for a reduction that there has been no downward revision in rates during the last dozen years; that the number of Menlo Park customers has increased 43 per cent since the company took over the system; that the company has been able to reduce the rate of interest on its bonded indebtedness.

"If no action is taken by the company," he said, "we should then make a formal complaint to the State of California Railroad Commission."

A docket system for handling business of the council was adopted upon recommendation of Councilman Paul Bryant "so that business can be handled in an orderly manner." First item on the docket for the next meeting is a survey of the parking situation on downtown streets. Second is a proposed bicycle ordinance, first draft of which was submitted by City Atty. James T. O'Keefe Jr. last night.

FINANCE COMMITTEE
After several matters had been referred to the finance committee, members of such a committee were appointed by Mayor Charles Oram.

Bryant suggested that a finance committee be "selected" and Oram said:

"Is it customary for the mayor to appoint this committee? If so I appoint Mr. Burgess and Mr. (William F.) Cutter."

There were no objections. Among matters which were referred to the group were:

A request from the Southeast San Mateo Civilian Defense Council for \$100; a request from the San Mateo County Boy Scout Council for a donation; a request from the San Mateo County Historical Association that the council purchase a membership for \$10.

The council voted to approve a request of the defense council for installation of a telephone at the Fremont School at a cost to the city of \$4.25 a month.

Action on a proposed street improvement plan involving Florence Ln., Alice Ln., Roble Ave., University Dr., Fremont St. and Santa Cruz Ave. was withheld pending receipt of a report from the War Production Board as to whether or not priorities can be obtained.

A group of Menlo Park students, serving as councilmen during Boys' Week, were guests at the meeting. Boy mayor was Wally Hibbert. Boy councilmen were Donald Knudsen, Daniel Rothermel, Paul Keving and John F. Brooke III.

The council adjourned in memory of Hugo May, former councilman who died Saturday night. A page in the minute book was set aside in tribute to his service.

M. P. WOMAN'S MOTHER DIES
PALO ALTO—After an illness of three weeks, Mrs. Margaret C. Zimmerman passed away at Palo Alto Hospital Sunday morning. Funeral services were held this morning at the Layne & Tinney Funeral Home with the Rev. E. J. Clark officiating. A daughter, Mrs. Grace Denton of Menlo Park, survives.

MENLO PARK NEWS

By D. E. O'KEEFE

MENLO PARK—After a short illness, Hugo May passed away at his home, 655 Hermosa Way, last Saturday. Captain May had served on the city council until last week when his term expired. He was an enterprising citizen, always working for the best interest of the community, giving freely of his time and talents to its advancement.

He was a veteran of the Spanish-American War, having joined the army at 17 and fought throughout the conflict. He moved to Menlo Park 11 years ago with his family. Surviving him are his wife, two daughters, and a son.

The funeral Tuesday from the Church of the Nativity was largely attended by relatives and friends.

Mrs. Georgina Mel de F. Williams passed away at the home of her daughter, Miss Margaret Williams Johnston, on Saturday night at the age of 94 years. Mrs. Williams came to California in 1858. She spent most of her life in San Francisco, coming here after the death of her husband 12 years ago.

Surviving her are two daughters, Miss Williams and the Rev. Mother Louise Williams, R.S.C.-J., of the Sacred Heart Convent here; three sons, Francis, Philip

and Cyrie, and three grandchildren, one of whom, Cyrie Bryner, is assistant in the Stanford Slavic language department.

WPA Tells Achievements

A diversified program of achievements has marked the operations of the Work Project Administration in San Mateo County, it was pointed out today by William R. Lawson, Northern California WPA administrator, in a report on six

years of WPA accomplishments. San Mateo County sponsors, he said, have placed emphasis on projects of material and concrete worth which will be of permanent benefit to the county.

The report disclosed that the WPA workers have built or reconstructed 265 miles of road within the county together with eight new bridges of 255 feet combined length.

Second ranking accomplishment was the construction of 19 new buildings and the rehabili-

tation of six more. Among these were six school buildings. One grandstand was erected, two new parks established and two others renovated. One athletic field and three playgrounds were rebuilt.

In the public utilities field the report showed one new plant, 14.7 miles of water mains and distribution lines, and 45 miles of new storm and sanitary sewers.

Lawson said the biggest single project in the county was the

reconstruction and extension of the Mills Field Airport, a project on which the government has asked that information be restricted.

Service Division achievements during the six year period included the manufacture of hundreds of thousands of garments, the serving of thousands of school lunches, expansion of recreational facilities and leadership, Americanization and other educational activities, along with health and research.

Local Unions Build Canteen

Two rooms in the old Redwood City police station on Jefferson Ave. are being remodeled by Redwood City Chapter, American Red Cross, to provide quarters in which to train canteen workers aiding the war effort and to provide a cooking headquarters in the event of a disaster. Mrs. Z. T. Thorning, chapter president, said.

Labor for the project is being furnished by three unions and was obtained by H. J. Dunlap and Fred A. Schmitz. Dunlap, a Redwood City contractor, obtained the co-operation of Carpenters' Local 1408 through its business agent, John Haugeberg, and the Painters' Local 1146 through its business agent, Roy Bonnell.

Schmitz of the Brand Plumbing Co. contracted Albert H. Randall of the San Mateo County Plumbers' Union and through him secured the services of six plumbers.

Plumbing fixtures are being furnished by Schmitz and school officials. Schmitz said his company had provided the necessary pipe, a hot water heater and a sink while an old sink from the McKinley School completed the necessary materials.

Loan of the two rooms was made by the school district through Andrew Spinas, superintendent. In charge of the project for the Red Cross is Mrs. Ernest Fox, vice chairman of the canteen committee under Jerry Cooper, committee chairman.

Upon completion of the work by the three unions which is expected by the end of this week, Mark E. Ryan chief of the Redwood City Fire Department and officer in charge of the city's electrical department, will supervise the installation of electric wiring.

Mrs. Thorning said the canteen could be used to feed firemen in the event of a serious fire and would be used for this work as well as war training undertakings.

Mutual Aid Planned By Fire Departments

A program of mutual war aid was drawn up Saturday at Redwood City by representatives of fire departments in San Mateo County. It was announced here by officials of the county defense council.

Terms of the program have been given to Daniel E. Sullivan, assistant district attorney, who will draw up a resolution to be ratified by fire department officials.

Essence of the program is that whenever possible, fire departments will send equipment and men to other departments in the county where incendiary bombs or other enemy weapons have hit most heavily. The matter of whether or not a particular department is able to help some other department is left to the discretion of the fire chiefs.

"UNREAL REALITIES" IN THIS AMAZING AMERICA

NORTH WOODS SUPERMAN

By Lake Bemidji in Minnesota stand huge statues of Paul Bunyan, the mythical giant lumberjack, and Babe, his famous big blue ox. According to Paul's tall stories, the Ten Thousand Lakes of Minnesota are merely Babe's footprints that have filled up with water.

NATION'S NO. 1 NEWSBOY

To thousands of American communities, Greyhound is also newsboy, mailman and expressman. Geared to provide transportation in peace or war, the role of "newsboy" is typical of the wide range of Greyhound's services to America.

CITY ON ICE

Smeltana, Michigan, booms in winter but disappears in summer. Its 250 houses are built on the ice of Lake Charlevoix, its inhabitants fishermen seeking the silvery smelt beneath their somewhat temporary homes.

DESERT WATER BARREL

Probably the last place you'd look for water is in a cactus plant—yet the barrel cactus on the desert near Tucson, Arizona, was a life-giving source of water to pioneers. Some of these huge, weird plants are over a hundred years old.

Major Coast Development Prospect Blocks Cannery

Rumors of a major military development at Half Moon Bay were confirmed here when the board of supervisors postponed a rezoning hearing which would have cleared the way for construction of the million dollar Hovden Food Products Co. fish cannery and reduction plant.

At the suggestion of Supervisor Alvin S. Hatch, Half Moon Bay representative on the board, the rezoning hearing was continued to May 5. Hatch explained that the property to be rezoned would probably be included in that to be acquired for military purposes.

Yesterday in Washington the Senate passed and sent to the White House a bill authorizing Secretary of War Henry L. Stimson to make a preliminary examination and survey of Pillar Point at Half Moon Bay.

Washington dispatches said the survey would be made in view of improving navigation facilities for national defense, and to provide and establish a necessary breakwater and port of refuge for coast shipping.

For years Coastside civic leaders have been advocating construction of the breakwater to make Half Moon Bay a potential mosquito fleet base. Apparently, however, the harbor project approved by the Senate and the development referred to by Supervisor Hatch today were separate projects.

Exchangites Set 2 Marks For Sale of War Bonds

Not only did the Redwood City Exchange Club set a record for a one-day sale of war securities at the downtown booth on Broadway Saturday, Club members sold more stamps and bonds than had been sold in the previous four Saturdays' sales combined.

Securities disposed of Saturday at the stand totaled \$7098.30, which included \$321.30 worth of war stamps and \$6775 (maturity value) of bonds.

In the four previous Saturdays when other organizations had operated the booth, the total of sales was \$6974.83. The previous high one-day mark was \$2607.25, set by the Kiwanis Club.

Apparently, however, the harbor project approved by the Senate and the development referred to by Supervisor Hatch today were separate projects.

Late Attorney Mansfield Praised

No sooner had Paul A. McCarthy been officially elected and sworn in as city attorney of Redwood City at a special session of the city council Monday night than he paid high tribute to the man he succeeds, the late Albert Mansfield, who had been city attorney for 34 years prior to his death last Tuesday.

McCarthy's election was unanimous, after a motion was made by Councilman William M. Werder and seconded by Councilman Evans A. Fletcher that he be appointed city attorney and attorney for the Port of Redwood City. He was sworn in by City Clerk Clarence W. Eltringham.

In an extemporaneous speech, McCarthy said he was appreciative of the honor to succeed such a man as Bert Mansfield was.

"When I considered the task of succeeding the man of such experience and wisdom as 'Bert' Mansfield I thought of how Andrew Johnson should have felt when he was called upon to fill the shoes of President Lincoln after the latter's assassination," he said.

"I am fully aware of the responsibilities I am undertaking and will do my duties to the best of my ability," he stated. "I wish to thank the many friends of mine who interceded with you (the council) to consider me."

"I expect to render opinions when called upon and to remember that I am an officer and em-

ployee of this municipal corporation."

On motion of Councilman George W. McNulty and second of Councilman Floyd D. Granger, the council voted wholeheartedly on a resolution praising Mansfield.

The resolution read:

"Whereas, the untimely death of Albert Mansfield on April 21, 1942, has deprived this city of the valuable services which he rendered for 34 years as city attorney, and this city council deplores the great loss felt not only by the public officers of Redwood City but also by his fellow citizens and friends.

"Now, therefore, be it resolved that we record here that as a lawyer Albert Mansfield possessed exceptional skill and was a convincing advocate who possessed sound judgment and unwavering loyalty to any cause which he espoused:

"That as a public official he had an open mind to hear and weigh the merits of each side of any public question and when he had reached a decision he persisted staunchly in striving for public welfare in the execution of his official duties;

"That as a citizen he had an unusual understanding of human nature, and sympathy for justice for every man and a character imbued with true ideals of Americanism derived from his mother and father;

"And that as an individual he

was a warm friend, loving and tolerant toward his fellow-men, and in turn beloved by a host of friends who knew and felt his generosity and gallantry."

It was further resolved that copies of this resolution be entered in the minutes of the council, certified and forwarded to his mother and his wife.

New Enlistment Types Announced by Navy

Three new types of enlistment were announced today by the U. S. Navy.

1. Former navy men, married or single, may re-enlist if they are not over 36 or 36 plus number of years previously served.

2. Men 17 to 50, high school graduates or holding or having held a federal radio license or having experience in radio repair, may enlist in the naval reserve for specialized technical training in radio. Pay is \$72 a month plus clothing, keep and rental allowance for dependents.

3. Men 18 or over who are high school graduates may enlist for pilot training.

Full information may be obtained in the naval recruiting office in the courthouse.

Chrome resources of the island of New Caledonia are said to be among the largest in the world, the Department of Commerce reports.

Evicted Family Takes Home Two Blocks Away

Ousted from their home after losing a year and a half court controversy over the question of whether or not their home at 922 Blandford Blvd. had been properly constructed, Mr. and Mrs. Burton S. LaTelle and their son, Russell, have moved to another Redwood City address two blocks away.

The LaTelles, according to Dep. Sheriff Clement Nash, left their former home in perfect order. They were ousted on a writ obtained by Contractor A. J. Wilbe, who had previously won a judgment for \$2246 against the LaTelles, and had purchased the property for the price of the judgment at sheriff's sale.

Research experts say that besides its value as a food, wheat can be utilized in 20 industries.

"Our secret for lighter cakes is KC Baking Powder"

—Say Leading Cooking School Demonstrators

Velvety texture—large volume—appetizing flavor—you get them all with K C Baking Powder.

Best for your finest cakes, K C gives equally splendid results in baking biscuits, muffins, cookies and cornbread.

K C saves you money, too. Full one-pound can costs only 15c.

For simply delicious baking—plus real economy—ask your grocer for K C Baking Powder.

BAKING HINT NO. 30—For even baking, always bake at near center of oven as possible.

KC BAKING POWDER

YOU CAN'T BUY BETTER... SO WHY PAY MORE?

THE FRONT LINE IS IN your BACK YARD!

You say you want Action! You say, "Why don't we take the offensive?" O. K. --here's your chance!

Now YOU can supply the Action. Now YOU can take the offensive.

Here's how: appoint yourself to the job and start right out—today—and

Be a WASTE WARDEN!

Don't put it off. As soon as you have read the rest of this, go down into the basement and up into the attic and out into the back yard... and do something.

Remember that Johnnie's B-B gun will make a fine mess of shrapnel. Remember that those cleaning rags you have been saving can do a better job protecting shells.

Don't worry about the details. And don't let anybody tell you America doesn't need the stuff you've been burning and wasting. America does need the stuff to win the war. It needs all the scrap and junk we can possibly gather together. Our great Production Program can't possibly succeed unless you and every other American does his share. Remember that the plans for Production for Victory are based on the absolute faith your Government has in you—and that America is counting on you to help provide one-third of the materials needed to win the war.

You'll get a kick out of it. It's your chance to get in there and pitch. It's your chance to fight shoulder to shoulder with your neighbors in every town, every county, every state in the Union... all working together in a job that's vital to Production for Victory. It's your chance to Get in the Scrap!

WHAT TO SAVE

Waste Paper:

Save waste paper—don't burn it! Wrapping paper, cardboard cartons and boxes, paper bags, newspapers, magazines are needed to make new paperboard to pack foods, airplane and tank parts, shells and ammunition and other articles.

Old Rags:

Cast-off clothing, burlap bags, draperies, mattresses, pillows, discarded carpets can be used in factories for wiping rags and for roofing and flooring materials in emergency construction.

Scrap Metals:

Iron, steel, brass, copper, aluminum, lead, etc., are needed. Dispose of discarded tools, metal beds, stoves, railings, tire chains, pots and pans, picture frames, hangers, toothpaste containers, pipe and hardware, batteries, and anything else made of metal—including tin cans.

Old Rubber:

Discarded auto tires and tubes, rubbers, overshoes can be reclaimed for military uses—and to make new tires and tubes.

Do not discard anything that is still useful and that might have to be replaced. This is a Salvage for Victory campaign!

HOW TO SAVE

Flatten out cartons, boxes. Tie in neat bundles; keep dry and clean. Pile newspapers separately, and tie in separate bundles.

Keep rags, metals and rubber separately—in cartons or bags if possible.

Clean and flatten out tin cans, stacking them (with their ends) in a box or carton.

HOW TO DISPOSE OF WASTE

You may either sell waste materials to a collector (junk man) or give it to Boy Scouts, Girl Scouts, or other organizations which collect them.

Old newspapers and magazines will be picked up by city garbage trucks, if they are wrapped and placed alongside the refuse containers.

Tin cans may be left at any service station, to be picked up by the county salvage committee.

A telephone call to the Redwood City Civilian Defense Council headquarters will bring either Boy Scouts or Girl Scouts to your home to collect scrap material, and these worthy organizations will benefit from whatever receipts they can get.

If you prefer to sell and a collector does not make regular rounds in your neighborhood:

1. Look through the advertising section and get in touch with a collector. Wait until your collection of waste paper has reached 100 pounds (a pile about 5 feet high) before asking him to come for it. Dispose of metals, rags and rubber at the same time.

2. Or take your collection to the nearest junk dealer's yard. By doing this you will help relieve the strain on collection facilities.

For further information you may call:

COMMISSIONS and BONUSSES

Every carrier, whether he wins one of the six capital prizes or not, will be given commissions and bonuses for all subscriptions and collections turned in for this contest.

TEAM PRIZE

The thirty-four Tribune carriers participating in this contest will be divided into six teams, each having five or six members. At the conclusion of this contest, each team having 3600 points or more, received from NEW and RENEWAL SUBSCRIPTIONS, will be awarded a trip to San Francisco to see a double-header baseball game at the Seals' Stadium. Dinner will be included. It will be possible for every carrier to go on this trip.

Contest Rules

ONLY Redwood City Tribune carriers are eligible to participate in this contest. Points will be given for both NEW and RENEWAL subscriptions, and for collections from regular subscribers or new subscribers for six months or one year in advance. (No advance payments will count unless customer has paid up to April 1, 1942).

THE CONTEST WILL START SATURDAY, APRIL 25TH

A RENEWAL SUBSCRIPTION is an order to deliver the Tribune to a person who is not a subscriber at the present time, but who has had the paper delivered at some time during the past thirty days. Renewals will count as much as new subscriptions during the first week of this contest.

Carriers will not be allowed to sell or exchange points in this contest. The contest will end on Saturday, May 23, 1942.

ALL SUBSCRIPTIONS MUST BE PAID BY THE PERSON ORDERING THE PAPER. (Payment in advance on new subscriptions is not necessary.)

Carriers may solicit anywhere within the delivery limits of the Redwood City Tribune.

Customers Save Too!

You can save 16% of your annual bill by paying your carrier a year in advance. A year's subscription, which paid at the rate of 75c per month would amount to \$9.00, may be had for \$7.50, a saving of \$1.50. (You receive 12 months for the price of ten.)

By paying your subscription six months in advance, you save 50c over the monthly rate for that length of time.

Equally important to the subscriber is the satisfaction of having paid your home town paper in advance, thus eliminating the inconvenience of having to bother to pay each month.

SUBSCRIPTION RATES

One month	\$.75
Six months	\$4.00
One year	\$7.50

HELPS CARRIER

If you pay a year in advance, your carrier is given 50 points toward one of the prizes offered in this contest.

For a collection of \$4.00 for six months, he receives 25 points.

Tribune carriers are authorized to accept payments in advance from subscribers who wish to take advantage of the savings offered. Special receipts have been issued for this purpose. If you want your carrier to collect your subscription in advance, phone 2000.
